Women associations received more sewing machines to strengthen the capacity of their projects. Some clinics and health centres, their patients were sleeping on the floor mats in the clinics now they received hospital mattress instead of floor mats.
11. The container after it was emptied, 10 different Non Profit Organizations have requested it to be used in their cooperative projects such as shops, sewing machine centre, housing, stocking etc..so the committee will sit together and decide which organization will be given the emptied container.
